

ENERGY AND CLIMATE CHANGE WG

Co-leads: Valentine Willmann (Scotland Europa), Irene Palomino (Extremadura), Emilia Perna (West Finland), Pieter Faber (Cities Northern Netherlands), Ingvid Jacobsen (Oslo Region)

Key EU processes to follow

- European Roadmap on Hydrogen Valleys
- European Wind Power Package
- Net Zero Industry Act
- Smart and sustainable buildings
- European Partnerships (e.g. Clean Hydrogen, Built4People, BATT4EU)
- EU Missions (Mission Adaptation to Climate Change, Mission Climate-Neutral and Smart Cities)

On-going activities to be followed further in 2024

- ERRIN's input paper to European Roadmap on Hydrogen Valleys
- Dialogue with the Commission on the Net Zero Industry Act
- Explore opportunities in the Built4People Partnership
- Capitalise on the results of [the RIPEET project](#) (e.g. methodology, Transition Labs)

First planned meetings

- Low Carbon Cluster project facilitation session: Cities Mission calls - 23 January
- Information Session on European Wind Power Package and Net Zero Industry Act negotiations - 14 March
- Joint Policy Conference with the Hydrogen Europe Regional Pillar and the S3 Hydrogen Valleys Partnerships on "Scaling-up Hydrogen Valleys to foster regional development" at the European Sustainable Energy Week – June (TBC)
- Follow-up: Low Carbon Cluster project facilitation session – 19 June
