

# City perspective: some PRL too

Tiina Ruohonen

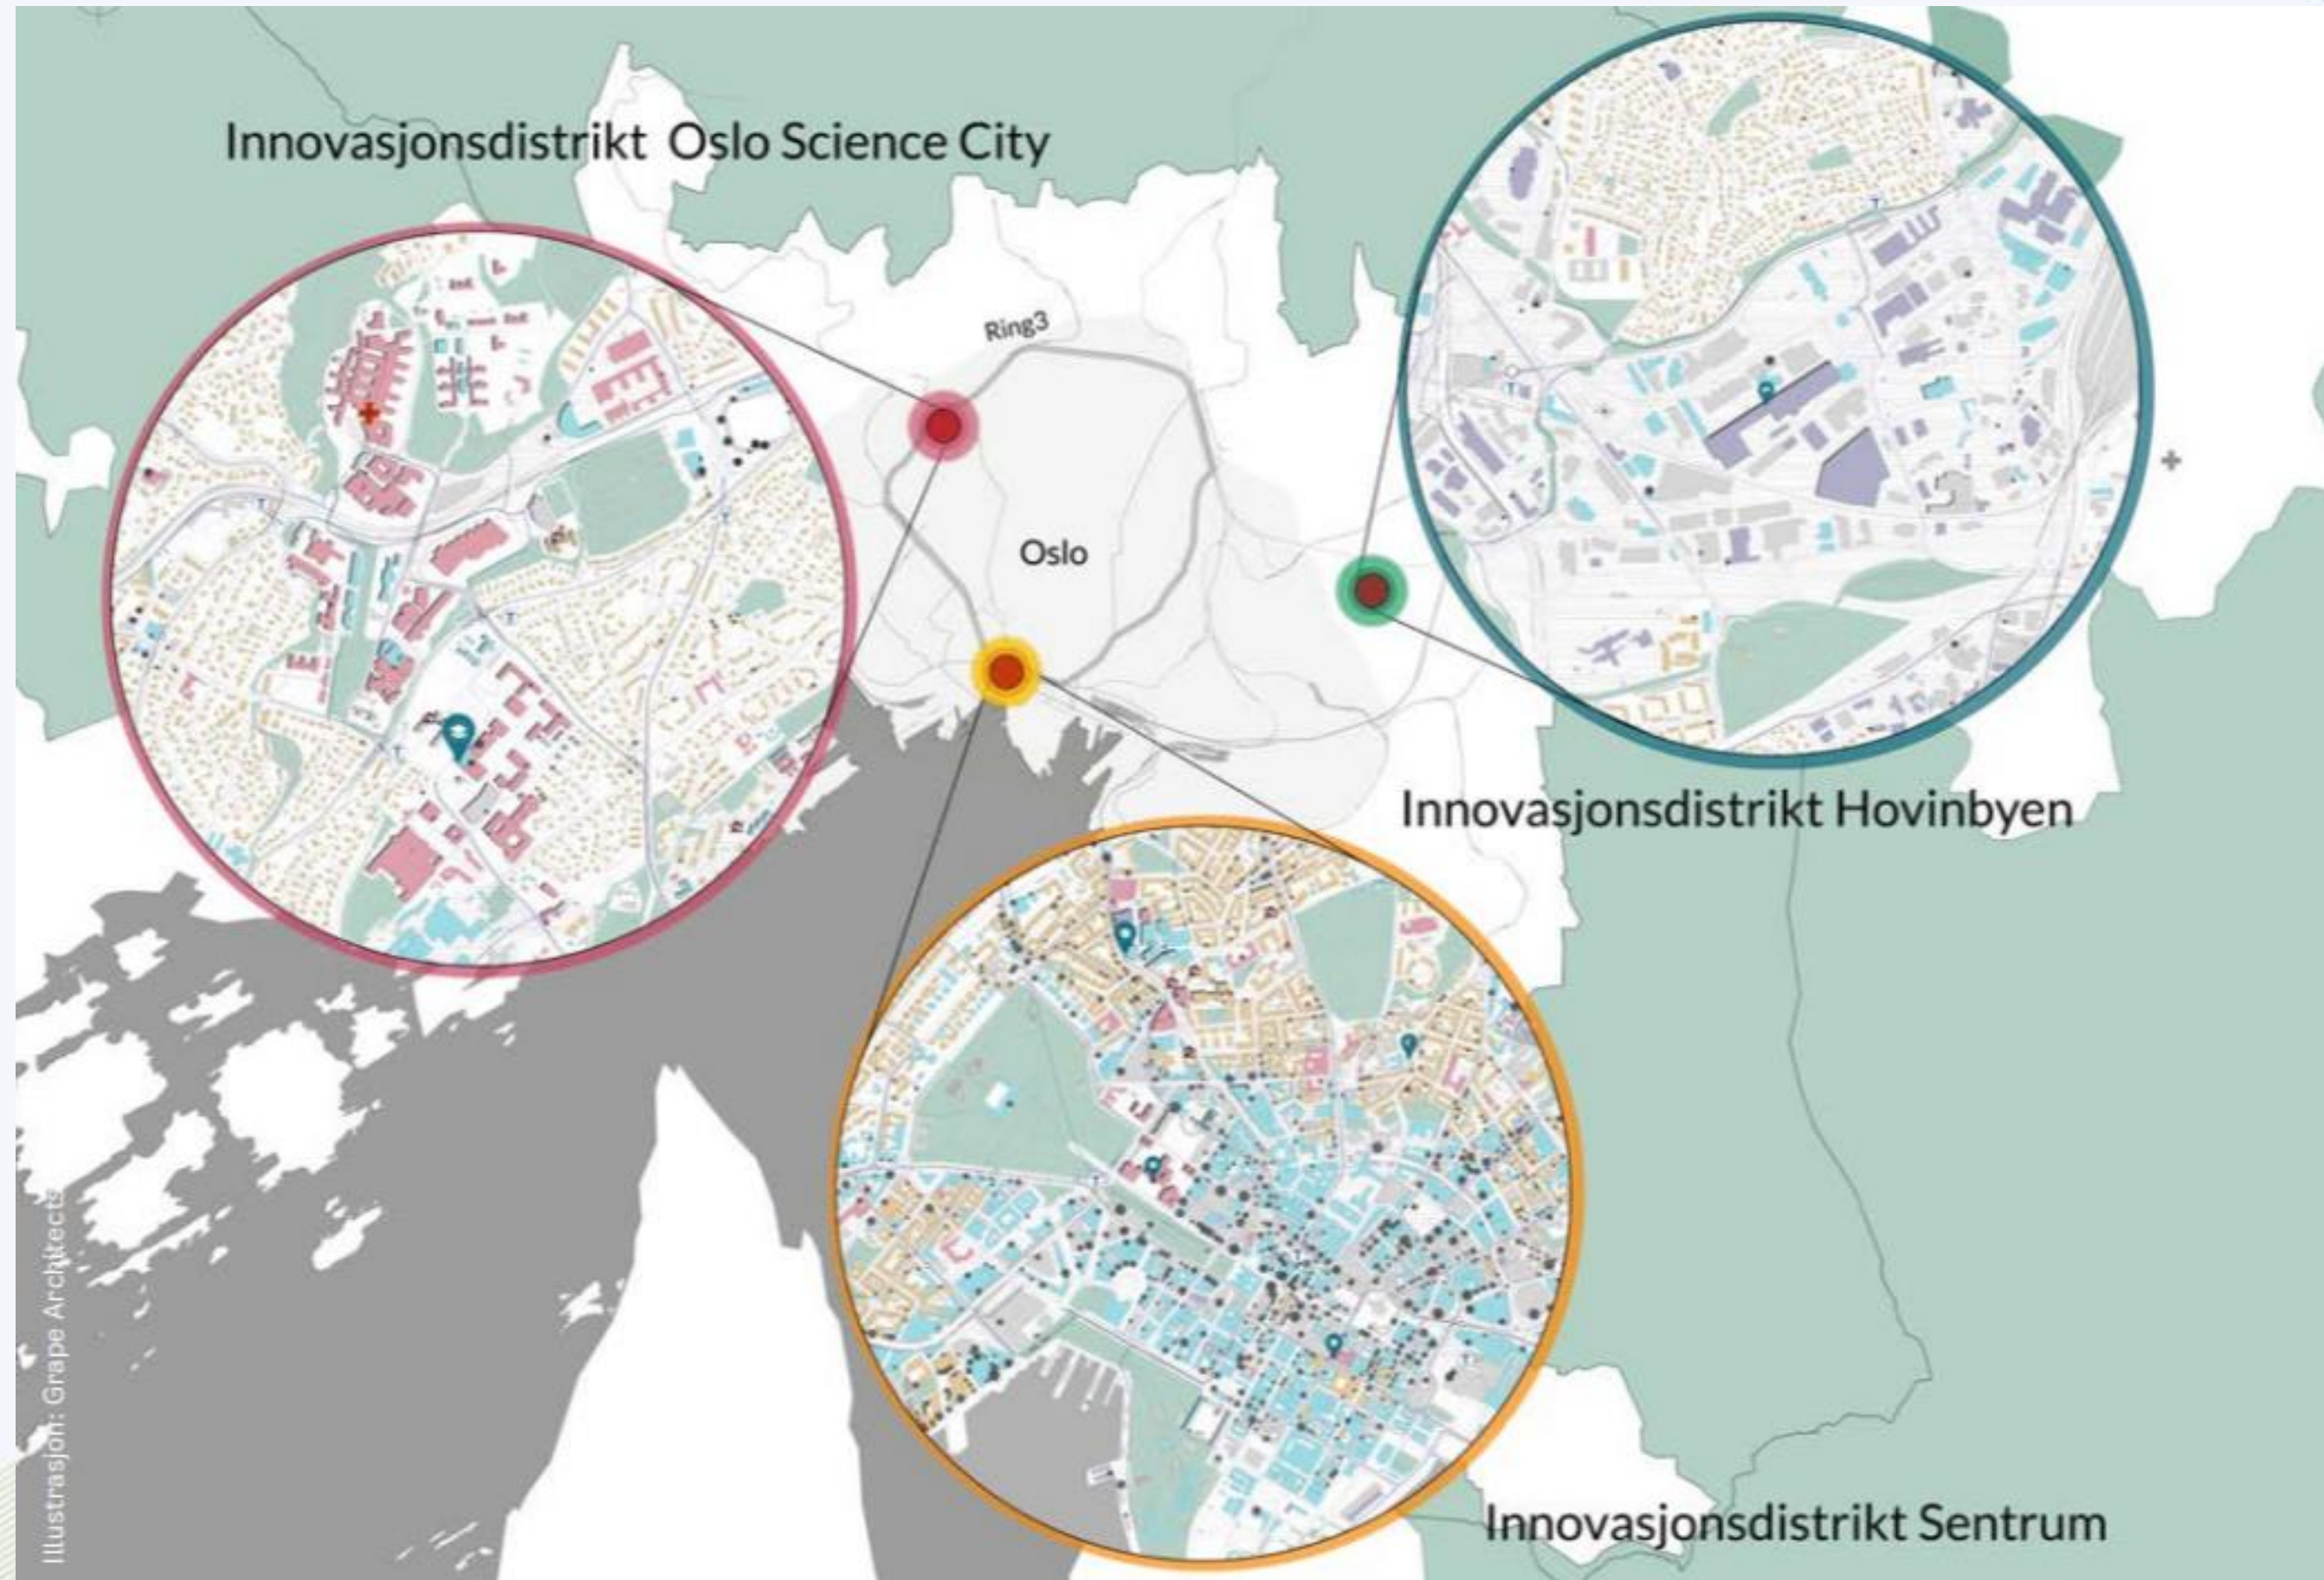

Horizon 2020 Coordinator & Project Developer

Office of the Governing Mayor

City of Oslo

To meet the objectives of the Paris Agreement the EU will need to transition to low-carbon, resource-efficient and resilient economies and societies. This will be based on profound changes in technology and services, to the ways in which businesses and consumers behave, as well as involving **new forms of governance**.

Finding new ways to accelerate the deployment of clean technologies and solutions for the decarbonisation of the European economy requires also increased demand for innovation. This can be stimulated through the empowerment of citizens as well as socio-economic and public sector innovation and will lead to **approaches broader than technology-driven innovation**.

# Thank you
