

# Welcome to

NORDIC  
EDGE

# NORDIC EDGE EXPO

# 20 22

10 - 11 May

## From Awareness to Action

We call out to politicians, leaders, technology inventors, citizens, investors, start-ups, artists, and students who want smarter and more sustainable cities and communities. At Nordic Edge Expo 2022, we will be inspired to act together and find solutions to small and large challenges to achieve UN targets for climate-neutral cities within 2030.

Citizens from both large cities and small communities all have the same basic needs. We all want to live in sustainable and green communities where children can grow up and have a safe and secure future. This binds us all. How can we contribute to the green shift together - leaving no one behind?

Because that's what this is all about. We've had enough of good thoughts and ideas. Now we need to show the evidence, solutions and concrete results. Enough talk, we have to act!

# Right in the heart of the vibrant city of Stavanger

The 8th leading Nordic event for future cities and communities will be a physical event in the city centre of Stavanger. From 10-11 May we will bring you a meeting place focusing on the following topics: Urban Energy, Citizen Involvement, On the Move and Spaces & Places. Come and experience smart cities and take part in demonstrating the technology live in the city centre as Stavanger will be a living lab for cutting-edge innovation.

## Meet up and be inspired!

- Inspiring talks and discussions
- Connect areas and side events

## Show and tell!

- The city as a Living Lab - on water, in and around the city
- Expo area in tents to showcase projects and exhibit products
- Investors & Start-ups area
- Workshops / sessions hosted by our partners

Together with music, in cooperation with the renowned jazz music festival, MaiJazz.

Nordic Edge Expo is the place where you learn and share, meet new collaborators and create partnerships.
