

Title: EU Biodiversity Strategy 2030 webinar

As leading biodiversity scholars at Finnish universities publish their position paper on the EU's post-2020 Biodiversity Framework and Biodiversity Strategy 2030, a webinar has been arranged to reflect on the paper.

The webinar will be a chance to reflect on the new EU biodiversity strategy with top EU-level biodiversity politicians. The event is organised by the universities of Turku, Helsinki, Oulu and Eastern Finland in collaboration with Turki-Souhtwest Finland European Office and the Helsinki EU Office.
